Overview: RMYC Youth Programs are composed of our Youth Corps and the Yampa Valley Science School(YVSS). The positions are outlined below.

As a Crew leader, you and your Co-Leader will lead 8-12 participants ages 14-18 in conservation service projects and weekend recreation activities across beautiful Northwest Colorado. You will spend the summer living and recreating outside with your crews with a day off in between sessions, and a crew leader work week in the middle and end of the summer season. RMYC provides all needed gear for kitchen set up and food for all participants. Camping Gear can be provided if needed.

Crew Leaders facilitate team building activities, crew dynamics, and teach valuable environmental and personal workshops to crews. The goals of the Youth Corps are to connect youth with their local environment, other youth their age, and provide a positive role model to help them gain skills to be resilient in their young lives.

Conservation service projects include, but are not limited to trail maintenance, log outs, barbed wire fence maintenance, campsite clean ups, invasive species removal, etc. Leaders will be supported by their field coordinator in the field as needed and will complete all assigned paperwork for tracking purposes. Leaders will need to be flexible, as changes in daily schedule will happen throughout the program due to illness, last minute project cancellations, etc.

RMYC's Youth Corps Program Models are listed below:

Routt County Community Youth Crew (CYC): Crew members are 14 and 15 years old and sessions are two weeks in length. The first week is a day program (8am-4pm generally) with the second week camping on or near the project site Sunday evening through Friday afternoons. Projects are primarily located near Routt county.

Regional Youth Crew (RYC): Crew members are ages 14-18. Sessions are two or four weeks, **24/7 with your crew (including weekends)**. Within this model, one crew will be a **Ladies Youth Crew (LYC)**, led by two female crew leaders.

Yampa Valley Science School (YVSS): After the summer season concludes, the positions shift to become a Yampa Valley Science School Instructor from middle-end of August through the end of September. You will provide place-based environmental education for all of the 6th graders in Routt County during this program. There are four weeks assigned to different schools, with one overnight involved each week. As an instructor, you will stay in our camp cabins with youth, participate in all camp activities including our Fireside skits and campfire, and oversee the students the full time when they are at Science School.
